

Training Workshop for Regional WIGOS Centres functions and tools in RA VI

Santander, Spain, 20-22 November 2023

Role and Status of RWCs

Bosnia & Herzegovina, Federal Hydromet. Institute

Kemal Šehbajraktarević
NFP WIGOS; OSCAR/Surface

Readiness Status

- Internal organization/Structure of RWC

- RWC manager

Kemal Šeh... (Current NFP for OSCAR/Surface)

for transition period of one Year – then change of NFP and RWC manager

- Context/integration to NMHS/organization

RWC shall be the part of the:

Department for collecting and exchange of data

- Relevant NFPs

Existing NFP for WIGOS; OSCAR/Surface....missing NFP for WDQMS

Planning to unite role of NFP for OSCAR and WDQMS in one person.

Readiness Status

- Readiness status

- Technical infrastructure

Satisfactory HW infrastructure already exist (PC's, stable broadband fiber optic Internet connection, Power supply...)

After eventual decision to become RWC some financial resources (cca. 20.000 eur /year) will be assigned from Federal Government for upgrade of the needed infrastructure.

- Human resources for RWC operations

After eventual decision to become RWC FHMZ have a Governmental decision to employ two people for full time work in RWC. With Manager of RWC (who will also work at the operational level) it is total of three people planned for RWC.

Readiness Status

- Support to Members

- *Functions*

As we already agreed...both mandatory function (Metadata management & WDQMS) would be performed

- *Geographic coverage (proposed Members for affiliation)*

???????????? Ex-Yu countries (same/similar language, organization of NHMS's....a lot in common)...If not, Secretariat should select the coverage of each RWC.

- *Language*

Ex-Yu....English

Thank you
