METEOROLOGICAL
ORGANIZATION

RA VI Support Exchange Platform – Overview

- Functions as a dedicated workspace within the Regional Association VI Microsoft Sharepoint Environment under ‘Regional Initiatives’
- Operates through two distinct but complementary mechanisms
 - **Ask for Support**, where a Member submits a specific request and other Members respond with targeted offers
 - **Offer Support to All**, where a Member publishes an open opportunity (e.g., training slots, internships, workshops, or spare equipment) that others can sign up for.

→ Supports both *demand-driven* needs and *supply-driven* opportunities

RA VI Support Exchange Platform – Overview

→ The platform serves to initiate cooperation and discussion most of which can then take place off-site.

Access and Rights

Access: Permanent Representative, Hydrological Advisor, Agency Approver, Secretariat. (for now)

Permission: members can view items, submit new ones, edit their own entries *but not those of others*; Secretariat retains full editing rights.

Exchange Platform: Live Demo

Request for your input

Dear Martin Benko,

You have received an expression of interest for your open offer Possible interreg project in river monitoring

Sign-up Name: Selena

Sign-up Email: selena.kulo@fhmzbih.gov.ba

Details: The Department of Hydrology is very interested in improvement of flood forecasting and warnings, even though B&H does not share any rivers with the Czech Republic, but in a way, we belong to the "broader Danube River Basin."
